

HI-SECURITY PROFILED SWING DOOR

If you are thinking of extra security, then the Janus Hi-Security Profiled Door is the solution.

These secure and durable doors have minimal flex, which reduces hinge strain and extends life even with heavy usage. They are easily installed and come with a lipped frame, which makes the door extra secure.

FEATURES & BENEFITS

Extensive product warranty

Our doors are built with quality in mind, which is why we offer an extensive product warranty.

Lipped edge for increased security

Closes leverage points between the door and frame and shields the latch tongue from attack.

High-grade hinge attachments

The solid hinges will stop leaf-sag and operate smoothly with minimum maintenance.

PACKAGING

Doors are packed with padded spacers into shipping crates for maximum protection. We manufacture the packaging to ensure our doors are delivered to you in the same condition as when they left the factory.

Sizes come as standard and reflect the door opening size. Custom designs are available upon request.
