

UNIT PARTITION

CORNER PROTECTORS

Corner Protectors are an essential product to protect corridor corners from damage as tenants transport their belongings.

They are a standard component of the corridor system either as part or full corner height. Square, shallow, or deep-mitred profiles are available depending on the turning radius required.

FEATURES & BENEFITS

- Extensive product warranty
- Manufactured in-house
- Protects the wall corners from long-term damage
- Made from aluminium for additional strength
- Easily recyclable

Sizes come as standard.

Custom designs are available upon request.
