- Mobile App (Tenant Access & Operations Management)
- Digital Key Sharing
- One-Touch Entry
- Automated Rentals
- 24/7 Access
- Activity Tracking
- 2 Year Warranty

NOKĒ™ PRODUCTS

HARDWIRED

nokē ion
no key. no problem.
BY JANUS INTERNATIONAL

Nokē Ion™ is a low-voltage, hardwired smart lock designed to provide continuous, energy-efficient smart security, offering unmatched reliability and compatibility.

- Enhanced locking mechanism
- Customisable
- Low maintenance
- Sleek in-the-door-frame design
- Independent motion sensor in unit

HD PADLOCK

NOKĒ™ HD PADLOCK

- Designed for external application
- Perfect for remotely managed sites
- Works in harsh environmental conditions
- Automated overlock functionality
- Full facility ecosystem with the add-on of Nokē gate access

WIRELESS

nokē infinitē
no key. no problem.
BY JANUS INTERNATIONAL

Nokē™ Infinitē is an on-door, dual-technology smart lock that is the latest addition to the award-winning line of Nokē Smart Entry products.

- Bluetooth & NFC
- 5 Year battery life
- Factory installed on Janus 650 roller doors
- 50% less power draw
- Tamper resistant

nokē ONE
no key. no problem.
BY JANUS INTERNATIONAL

Nokē™ One is a versatile, battery-powered smart lock designed for secure and efficient access, offering excellent integration and reliable performance.

- Enhanced battery life
- Quick installation
- Thermal motion sensor
- On-door lock placement, ideal for retrofit

ACCESS

The Nokē™ Smart Entry system allows operators to automate their facility by bundling a wide range of access points i.e Nokē Entry Controllers/ Nokē Keypad. This enables smart control and gives operators the ability to open access points remotely.

Access points include:

- Gates
- Sliding Doors
- Overhead Doors
- Pedestrian Doors
- Goods & Passenger Lifts
- Office / Reception Doors

NOKĒ™ RETROFIT

Operators can modernise their existing self storage facilities with Nokē™ Smart Entry, unlocking the full potential of smart access technology.

Designed for flawless integration, Nokē is fully compatible with all existing Janus infrastructure, making retrofitting simple and efficient. Enhance security, streamline operations, and offer tenants the convenience of smart access – all without the need for major renovations.

SITE REQUIREMENTS

Power	230V AC power
Wi-Fi or Mobile Data	Broadband or mobile data is required
Network	CAT6 cable will be required to access points and various locations throughout the storage facility to enable cloud connectivity. A network port for installation of a network switch (Power over Ethernet) within the technical room
Internet	Internet should be available and have speeds of at least 10 Mbps upload and 10 Mbps download time

WHAT'S INCLUDED

- Nokē Electronic Locks, Motion Sensor and Digital Overlock to any smart units
- Nokē Controllers to access points where specified
- Nokē Smart Entry Gateway Hubs
- Nokē Smart Entry Smart Phone App & Web Portal Application
- PoE Switches
- Enhanced on-boarding and training

ADDITIONAL OPTIONS:

- Integration with remote monitoring providers
- Sounders installed in corridors
- Key fobs

CERTIFIED NOKĒ SERVICE TECHNICIANS

All Nokē™ Smart Entry hardware and network switches are supplied and installed by Nokē–trained professionals. A dedicated Nokē expert will provide comprehensive training.
